

Groeslon Flood Alleviation Scheme

PUBLIC CONSULTATION DROP-IN SESSION

Key Risks & Opportunities

Risks	Opportunities
High costs (relative to forecasted flood damages)	Reduce flood risk to the residents of Groeslon
Lack of funding to construction phase	Increased resilience to highway network
Standard of protection may be below industry standard	Potential amenity and biodiversity enhancement
Residents/landowner opposition	Improving existing structures within private land
	Reduction in maintenance obligations for Gwynedd Council
	Raises awareness of flood risk within the community
	Local employment opportunities during construction phase
